Career summary

ASSISTANT MANAGER – SENIOR FULL STACK DEVELOPER

SEPT 2023 - SEPT 2024

Evercare Hospital Lekki | Nigeria

Effectively managed a team of developers, promoting Agile principles that improved project turnaround time by 30%. My leadership fostered a collaborative environment where team members felt empowered to contribute ideas, leading to the successful delivery of four major web applications.

- I Achieved a 98% SLA compliance by using strong problem-solving and time-management skills to handle application requests and resolve incidents effectively.
- I developed and delivered four major applications, streamlining business processes by 30%.
- To optimize business decisions, I applied Angular, PowerBI and C# in developing Evercare Dashboards, saving the organization approximately \$14,000 annually while improving report turnaround times for over 700 users.
- Enhanced application deployment accuracy by 30% through detailed technical documentation and structured testing protocols.
- I enhanced support request response by optimizing Windows OS configurations, improving user experience, and reducing technical issues.
- I developed and maintained the Cafeteria Management System, a digital solution that generated \$50,000 in revenue and reduced queue times.

INFORMATION SYSTEM ANALYST / DATA ANALYST

APR 2022 - SEPT 2023

Evercare Hospital Lekki | Nigeria

Leveraging my expertise in Business Intelligence, I utilized Power BI to automate reporting and provide actionable insights, resulting in a 20% increase in team efficiency and a more data-driven approach to project management.

- Automated reporting processes using Power BI, enhancing data-driven decision-making and boosting team efficiency by 20%.
- I built collaborative relationships across departments to implement critical system updates and user training, receiving management commendation for execution quality.
- I leveraged SQL and Excel for data validation, increasing data accuracy and optimizing asset tracking by 15%.
- Reduced vendor response times by 30% by establishing clear communication channels and managing vendor relationships more effectively.
- Played a key role in training new team members, Oracle ERP system and operational processes, improving team performance, onboarding and system usage efficiency.
- Employee recognition was achieved by leveraging data-driven metrics, which earned me the Employee of the Month award for improving data accuracy and automating key tasks.

DATA ANALYST (INTERN)/ IT SUPPORT SPECIALIST

FEB 2021 - APR 2022

Layer3 LTD outsourced Evercare Hospital Lekki | Nigeria

- I delivered 2nd line support for internal and external clients achieving over 95% SLA compliance
- Excel skills were critical in validating data across various teams, leading to a 10% increase in data accuracy and earning positive feedback from supervisors.

- Engaged with clients and stakeholders to assess technical needs and ensure seamless report delivery.
- I managed support for Windows Desktop environments, including installations and upgrades, enhancing overall IT infrastructure reliability.
- I resolved user account issues and supported software installations, maintaining high client satisfaction with MS 365.
- I utilized Forticlient firewall and VPN configurations to ensure remote access for users, facilitating a secure work environment.
